

## WP 300.09

### Laboratory trolley

#### Specification

- [1] laboratory trolley for experimental units
- [2] 3 storage drawers
- [3] 3 retractable sockets

#### Technical data

Top area, LxW: 1320x780mm

230V, 50Hz, 1 phase  
230V, 60Hz, 1 phase  
120V, 60Hz, 1 phase  
UL/CSA optional  
LxWxH: 1530x790x830mm  
Weight: approx. 80kg

#### Scope of delivery

- 1 laboratory trolley

#### Description

##### ■ laboratory trolley for experimental units

The laboratory trolley enables to easily store GUNT experimental units and, when needed, moving it comfortably to another place. Accessories like specimens, tools or manuals can be stored in three drawers. Three retractable sockets are used for the current supply of the experimental unit and of an external data acquisition, for example.
